September, 1986

MESSAGE FROM THE HONORABLE LARRY R. SHABEN

It is a pleasure to present the Annual Review of the Alberta Agency for International Development (Alberta AID) for fiscal year 1985-86.

The Speech from the Throne on April 3, 1986 stated: "Our people are known for their humanity and for helping others. Wherever in the world disaster strikes, sympathisers, workers and donors will be found among Albertans. My Government supports Alberta's own Agency for International Development."

During the past year, the people of Alberta have demonstrated their generous spirit by contributing over $21 million to Non-Governmental Organizations (NGOs) participating in the Alberta AID Program. Over the same period, the provincial government contributed more than $7 million to NGOs, supplementing funds donated by Albertans for development and emergency assistance projects. The Alberta program helped fund 335 projects in 70 less developed countries, working in co-operation with 83 NGOs.

Many NGOs concentrated last year's work in drought affected African countries and the Alberta government was quick to respond to their needs. Over $1 million went to projects in Ethiopia and $2 million to projects in other African countries.

The suffering caused by the Mexican earthquake and Colombian volcano eruption deeply touched the people of Alberta. During the year, $300,000 was contributed for disaster relief in Mexico and $167,817 for relief in Colombia.

The Alberta AID program--the largest provincial program of its kind in Canada--has been described by some NGOs as a "catalytic" program, stimulating various combinations of NGO activity.

The Alberta government is proud to co-operate with the NGOs and respond to the humanitarian concerns of the people of the province. Together, Albertans are helping to raise the level of self-sufficiency among the world's poor and build a better tomorrow.

Larry R. Shaben
Minister

ALBERTA AGENCY FOR INTERNATIONAL DEVELOPMENT
ADMINISTRATIVE POLICY GUIDELINES
FOR THE PROGRAM OF FINANCIAL ASSISTANCE TO
NON-GOVERNMENT ORGANIZATIONS (NGOs)

PURPOSE

The purpose of this program is to provide financial assistance to Non-Government Organizations (NGOs) for the support of projects and programs of developmental assistance and/or emergency relief in the less developed countries.

DEFINITION OF NON-GOVERNMENT ORGANIZATION

For the purpose of this program a Non-Government Organization (NGO) is defined as a body corporate:

1. incorporated under the laws of Canada or an Act of the Alberta Legislature.

2. whose objects of incorporation include carrying on developmental assistance and/or emergency relief projects in the less developed countries.

3. which has been assigned a charitable tax number by the Department of National Revenue of Canada.

4. actively engaged in projects and programs of developmental assistance and/or emergency relief in the less developed countries.

5. which received voluntary contributions from the residents of Alberta for purposes of development assistance and/or emergency relief in the less developed countries.

6. which has appointed a resident of Alberta as its Authorized Alberta Representative, authorized on its behalf to sign and execute documents required by the Alberta Agency for International Development and to receive grant cheques issued by the Government of Alberta.

ELIGIBILITY TO APPLY FOR PROJECT FINANCIAL ASSISTANCE

To be eligible to apply for project financial assistance under this program a Non-Government Organization (NGO) shall:

1. Provide the Alberta Agency for International Development with the most recent and current following documentation:

(a) articles of incorporation and/or registration under the laws of Canada or an Act of the Alberta Legislature;

(b) amended constitution and by-laws;

(c) Annual Report;

(d) audited financial statement;

(e) a completed Annual Information Return Form signed by the principal appointed officer of the NGO; and

(f) a Statutory Declaration executed by the NGO's Authorized Alberta Representative declaring the total amount raised in Alberta for purposes of developmental assistance and/or emergency relief (excluding government grants) by the NGO during its most recent and current audited fiscal year.

2. Provide, if requested, satisfactory evidence that it conducts its fund raising in such a manner that its members, constituents, donors and contributors know they are contributing for purposes of developmental assistance and/or emergency relief in the less developed countries.

3. Provide, if requested, satisfactory evidence that it is managed efficiently and competent to carry out projects and programs in the less developed countries.

4. Agree that the Minister or his designated representatives may audit the financial records of the NGO at any time deemed necessary by the Minister.

AUDITED FINANCIAL STATEMENTS

For the purpose of this program audited financial statements are defined as:

1. Financial statements, upon which an independent public accountant who is a holder of a recognized professional accounting designation such as: C.A., R.I.A., C.G.A., or a similarly qualified individual has expressed his/her opinion as evidenced by his/her certificate attached to the financial statements.

2. In special circumstances and at the discretion of the Executive Director of the Alberta Agency for International Development, for small localized charitable groups/ societies where the expense of an audit as defined in (1) would impose a financial burden, an audited financial statement may be defined as a financial statement on which

two members of the group/society, appointed or elected for that purpose, have performed an independent review of transactions to determine the quality of the financial information presented by the Secretary/Treasurer of the group/society. Evidence of such review must appear directly on the financial statement and should show:

(a) date the review was performed;

(b) certification that such a review has been performed in a conscientious manner;

(c) that the financial statement accurately reports all financial transactions for the period indicated; and

(d) signatures of the two appointed or elected members.

PROJECT FUNDING PRINCIPLES

The following guidelines apply to the provision of grant funds:

1. The financial assistance available to an NGO in any Alberta Government fiscal year will be based on the NGO's total funds raised in Alberta, for purposes of international developmental assistance and/or emergency relief, less the costs of administration, in the course of its most recent and current audited fiscal year.

2. At or near the beginning of each Government of Alberta fiscal year, each eligible NGO will be issued a Grant Level Figure indicating the total financial assistance available to it for project support in that fiscal year.

3. Financial assistance will be provided to an NGO only on a project-by-project basis and only for specific and identifiable projects and programs.

4. NGOs requesting project financial assistance from the Alberta Government are requested to make the maximum use of Alberta products in these projects wherever such use is appropriate and feasible.

5. Total project funds received by an NGO in any Government of Alberta fiscal year normally may not exceed the net amount raised in Alberta for purposes of international development assistance and/or emergency relief in the course of its most recent and current audited fiscal year.

6. Five percent (5%) of the total Alberta Government budget for international assistance in each fiscal year will be reserved for use in special circumstances to be decided by the Minister Responsible.

APPLICATIONS FOR FUNDING

1. An NGO which meets the definition and eligibility requirements under the terms of this program may submit applications for project funding.

2. Each application for project funds shall:

   (a) be on the form prescribed for this purpose by the Minister;

   (b) be submitted by the NGO requesting the project funds;

   (c) provide sufficient detail to show that the project is financially and economically sound, is well accepted in the country concerned and that the objectives are realistically attainable within the resources and time available;

   (d) be accompanied by a Statutory Declaration declared by the NGO's authorized Alberta Representative before a Commissioner for Oaths or Justice of the Peace attesting to;

      (1) his/her name and position,

      (2) the name of the NGO,

      (3) his/her knowledge of the application,

      (4) the amount being requested,

      (5) the purpose for which the funds are requested, and

      (6) the amount being contributed to the purpose by the NGO.

3. NGOs submitting several project applications in each fiscal year are required to space these submissions at "reasonable intervals" throughout the year.

4. Except in special circumstances or emergency situations, consideration will not be given to applications received in the office of the Alberta Agency for International Development later than **FEBRUARY 15TH** of each fiscal year.

ISSUANCE OF CHEQUES

All cheques issued as project grants shall:

1. Be made payable to the legal name of the NGO and be addressed to the authorized Alberta Representative of the NGO, and

2. Be sent directly to the payee.

REPORTING

1. Upon receipt of a project grant from the Government of Alberta, the NGO will be issued a **GRANT ACCEPTANCE FORM.** The NGO will immediately complete this form and send it to the Alberta Agency for International Development.

2. For each project for which funds are received, the NGO shall report every six months to the Alberta Agency for International Development on the progress of the project, until such time as the project, or identifiable segment of the project funded by the Government of Alberta, is complete. **PROJECT PROGRESS REPORT** forms will be issued to the NGO for this purpose.

3. Upon completion of the project, or identifiable segment of the project to which Alberta funds have been applied, the NGO shall submit a final report to the Alberta Agency for International Development.

EXCEPTIONS AND CONDITIONS

1. Funds under this program are not available for purposes of defraying administrative costs incurred in Canada by an NGO.

2. No portion of Government of Alberta project grant funds may be used for a purpose other than that stated in the Statutory Declaration and Project Application Form without the prior written permission of the Minister.

3. No portion or percentage of Government of Alberta project grant funds received by an NGO shall be rebated, paid or contributed to another Canadian International Assistance Agency as a donation, payment or fee for services rendered without the prior written permission of the Minister.

4. Any portion of Government of Alberta project funds not used for the purpose for which they were originally approved or for another purpose with the prior written permission of the Minister, shall be returned to the Provincial Treasurer of the Government of Alberta.

5. The Government of Alberta expects that all interest or other income earned on project grant funds, which are held by an NGO pending implementation of the project for which the funds were granted, shall be applied to the purpose for which the funds were originally granted, or to another purpose with the prior written permission of the Minister.

6. Delinquency by an NGO in furnishing receipts, reports, or other project information as requested pertaining to grants which have been received may result in a request that such grant funds be returned to the Provincial Treasurer of the Government of Alberta and will have a direct influence on decisions to approve future project applications.

ACKNOWLEDGEMENTS

1. NGOs receiving project financial support under this program are expected to acknowledge this support in annual financial statements and annual reports.

2. Recognition of Alberta financial support is also expected from time to time in NGO news releases, brochures and other publicity materials.

3. Recognition of Alberta financial support is expected in the less developed countries wherever such recognition would not jeopardize the acceptability or success of the project.

APPROVAL

1. Submission of required documentation, Applications Form, and Affidavit should not be interpreted by an NGO as constituting approval of the project for which application is made.

2. Normally an application for project grant funds will be deemed approved when it has been recommended by the Executive Director, Alberta Agency for International Development, or officially designated alternate, by the Deputy Minister or officially designated alternate, and has been approved by the Minister or the officially designated alternate.

AVAILABILITY OF FUNDS

Funds available for project support under this program, regardless of the net amount raised in Alberta by the NGO in the course of its most recent fiscal year or the amount the NGO is contributing to the project, shall be contingent upon:

1. the amount of funds voted for the program by the Legislative Assembly of Alberta;

2. the relative merit of the project for which funds are requested; and

3. the performance of the NGO.

PROVISO

Notwithstanding any of the foregoing, the Minister reserves the right to use personal discretion with respect to:

1. the eligibility of an NGO to receive project funds;

2. the amount to be granted to each project;

3. the total amount to be granted to each agency in any fiscal year; and

4. special terms and conditions which may be attached to individual project grants.
